12th European Aids Conference

November 11 – 14, 2009 · Cologne · Germany

WELCOMING MESSAGE

It is our great pleasure to invite you to Cologne to attend the 12th European AIDS Conference/EACS which is being organized under the auspices of the European AIDS Clinical Society (EACS). We will strive for the conference to offer an exciting scientific program, composed of a well-balanced mix of timely plenary lectures and symposia, as well as abstract-driven sessions presenting recent original research in the field of HIV medicine.

One of the important goals of EACS in organizing the European AIDS Conference is to promote an interest in clinical HIV research amongst young researchers/clinicians at an early stage in their career, including in those from Central and (South)-Eastern Europe. Therefore, we would particularly like to encourage such junior researchers to submit results from their scientific work to the conference, and also use it as a venue for networking with colleagues in the field.

We look forward to seeing you in Cologne in November 2009,
